Junior Web / Full Stack Developer

Seeking a 1-year work-study (apprenticeship)
starting January 25, 2027
Schedule: 3 weeks at company / 2 weeks in training

PROFILE

Junior Full Stack Web Developer undergoing a career transition, with practical hands-on experience in web application development, programming, and IT environments. Proficient in JavaScript, React, Node.js, Express, PostgreSQL, Python, and VBA, applied through multiple projects, notably the development of a Full Stack application and a data entry automation tool.

My background in IT support and cybersecurity training also gives me a solid understanding of systems, networking, security, and user requirements. Autonomous, adaptable, and analytical, I quickly pick up new technologies and thrive in team settings.

COMPETENCES

FULL STACK WEB DEVELOPMENT React • Node.js • Express • HTML • CSS • JavaScript	PROGRAMMING & AUTOMATION Python • Java • VBA • PowerShell • Bash
DATABASES PostgreSQL • SQL • NoSQL	SYSTEMS & ENVIRONMENTS Linux • Unix • Windows Server • Active Directory (AD DS)
CYBERSECURITY & NETWORKING Networking • Ethical Hacking • Penetration Testing • Securing IT Environments	IT SUPPORT Tier 1 & 2 Support • Incident Troubleshooting • Installation & Configuration • Asset/Fleet Management

IT PROJETS

June 2025 – October 2025

FULL STACK WEB APPLICATION – MJC ANNEMASSE

Developed a web application to manage a **festival schedule**.

- Designed and built a full stack application.
- Back-end development using **Node.js** and **Express**.
- Designed and managed the **PostgreSQL** database.
- Structured and integrated core application features.

Technologies : Node.js • Express • PostgreSQL • JavaScript

May 2025 – September 2025

DATA ENTRY APPLICATION – VBA

- Built a tool to streamline the entry and tracking of laboratory biopsy results.
- Designed and developed an application using Microsoft VBA.
- Automated data entry and processing workflows.
- Improved user interface and user experience (UX).
- Enhanced overall data entry reliability.

Technologies : Excel • VBA • Automation

November 2025

HACKATHON GREEN IT – HEG & MEANQUEST

- Participated in a collaborative project dedicated to creating a Green IT protocol.
- Brainstormed solutions for the reuse and recycling of IT hardware and components.
- Collaborated in an agile, project-oriented, and innovative environment.

Nonprofit Involvement

SWISS CYBERSECURITY

- Assisted in planning and organizing cybersecurity events.
- Contributed to community outreach and growth.
- Supported awareness campaigns on cybersecurity topics.

WORK EXPERIENCE

February 2026–present

IT Support Technician

Ecole La Chamarette

- Managed the full iPad fleet lifecycle: deployment, configuration, and maintenance.
- Enforced security protocols and content filtering policies.
- Conducted an IT audit and planned migration to Apple School Manager and an MDM solution.
- Streamlined device enrollment and remote management.

September 2025

IT Technician (Internship)

Egres Immobilier

- Installed and configured a new fleet of IT equipment.
- Installed and configured software packages.
- Handled secure data migration.
- Set up access to various SaaS platforms.
- Supported and onboarded users during initial rollout.

Avril–June 2025

IT support Technician level 1 & 2 (Internship)

Sogeco Risk management

- Diagnosed and resolved hardware and software incidents.
- Provided Tier 1 and 2 user support and assistance.
- Contributed to website improvements.
- Automated tasks to optimize internal processes.
